Detailed Weekly Log

After going through a lot of struggle to install all the required software and dependencies we all of us were able to finally start the project under one github repository and ran the project on our own PCs.

Member 1: Yoshiki Zaman worked to set up the frontend of the project. And also worked on wireframing an initial landing page for the project

Member 2: Adib Araf Sabab worked on the helping make the landing page work seamlessly and helped organize the frontend folder structure for the project

Member 3: Imtiaz Ahmed Khan worked for making backend folder structure

Member 4: Hrick Romit Barai worked on finalizing the project structure and the PRD for the project along with making the Database for the project and connecting to each other through the docker.
